This approach allows for:

- Flexibility in lighting levels and moods
- Reduction of harsh shadows and glare
- Creative expression through diverse lamp styles and placements

Artistic and Technical Principles

Watson's methodology involved a careful analysis of:

- Light distribution: Ensuring even and strategic illumination
- Color temperature: Using warm or cool lights to set the ambiance

- Control systems: Incorporating dimmers and switches for versatility

Her work emphasized that lighting should not merely illuminate but also tell a story, evoke feelings, and enhance the overall aesthetic of a space.

Notable Projects Featuring Many Lamps

In private homes, Watson employed multiple lamps to create cozy, inviting atmospheres. For example:

- Living rooms with a combination of table lamps, floor lamps, and sconces, layered to highlight

artwork and architectural features

- Bedrooms with bedside lamps and bedside sconces providing customizable lighting for relaxation and reading

Commercial and Public Spaces

Her approach was equally impactful in larger settings:

- Theaters and performance venues where multiple lighting sources contributed to theatrical effects and audience engagement
- Hotels and restaurants designed to evoke specific moods through strategic lamp placement and varied light intensities

Public Art Installations

Innovations and Techniques in Watson's Lighting Design

Layered Lighting Strategies

By combining ambient, task, and accent lighting, Watson created versatile environments suited for different activities and times of day:

- Ambient light: General illumination from ceiling fixtures or hidden sources
- Task light: Focused lamps for specific activities like reading or work
- Accent light: Spotlights or decorative lamps highlighting features or artworks

Use of Diverse Lamp Styles

Watson believed in the aesthetic value of various lamp designs, from vintage sconces to modern minimalist fixtures. Her careful selection of lamps contributed to the overall harmony and visual interest of her projects.

Emphasis on Materials and Light Quality

She experimented with:
